ANDALUSIA: HISTORY AND CIVILISATION

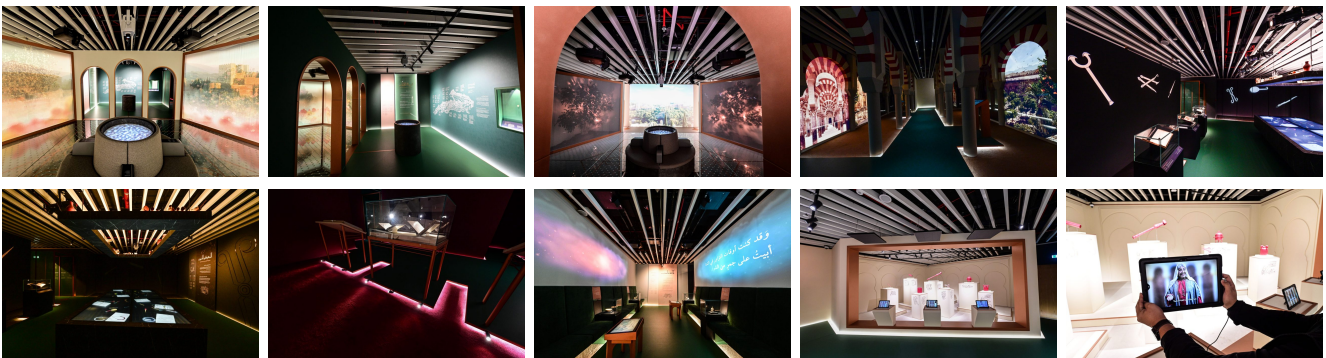

AUDIOVISUAL EXHIBITION

Sheikh Zayed Grand Mosque Center

XYZ Technologies was selected by **Barker Langham**, a renowned experience designer, to help create a new exhibition on the history of Andalusia at the **Sheikh Zayed Grand Mosque Center**.

This exhibition features an extensive collection of Andalusian heritage figures, rare artworks, and literary creations that have helped shape the characteristics of the Iberian Peninsula. Its aim is to pay tribute to the Andalusian civilization while also highlighting the Arab civilization in Andalusia, symbolizing the values of tolerance and coexistence.

This initiative is part of the ongoing efforts of the UAE leadership to promote tolerance, openness and moderation. To showcase the rare artworks, scientific publications, and precious objects that have shaped the rich history of Andalusia, the Sheikh Zayed Grand Mosque Center has benefited from the audiovisual expertise of XYZ Technologies.

Description

In this highly sophisticated setting, where every element has been thoughtfully designed to immerse visitors in the art and history of Andalusia, our team's contribution was instrumental in achieving the result. We integrated lighting and audiovisual elements that harmonize with the exhibition's layout. In addition to the show control system, our experts also contributed to the interactive programming, which brings this exhibition to life through technology.
